

# **AMERICAN WORKER!**

- The United States has lost approximately 42,200 factories since 2001
- In 2008, 1.2 Billion cell phones were sold world-wide. How many manufactured in the United States? ZERO!
- As of July, 2010 the trade deficit with China had risen 18% compared to the same time last year.
- The United States has lost approximately 5.5 Million manufacturing jobs since October 2000.

The economic policies of both the Republicans and Democrats are flawed.
