

A NEW COMPACT AMONG AMERICAN NATIONAL SOCIALISTS

A Resolution proposed by the National Socialist American Labor Party to end intra-party strife.

In the Spirit of a New Cotswold Agreement

Preamble

For nearly fifty years our Movement has lacked any semblance of forward progress, in place of forward progress, our Movement has seen political cannibalism which has allowed our foes to define us. We have allowed strife between National Socialist Parties to take the place of the advancement and positive promotion of our message which as resulted erosion of credibility in National Socialism as a viable political dynamic. We accept our part and resolve to effect change in the spirit of a new Cotswold Agreement, and we, American National Socialists, hereby acknowledge that while we have philosophical differences, these are secondary to the positive advancement of National Socialism for the benefit of our Folk.

Whereas, with the dawning of the 21st century, we see our Aryan folk, culture, and customs in full retreat from the onslaught of the enemy. Therefore, we believe and confirm that those of European bloodlines, not Jewish or mixed with Asiatic or Negroid bloodlines are one common race hereafter referred to as Aryan. Furthermore, we believe and confirm the tenants as expressed in the 1962 Cotswold Agreement. Continuing, we believe and hold firm that a disciplined and united front against the enemy is the last hope for the continued existence of Aryan culture, and

Whereas, we believe that each Aryan should take an oath to solemnly uphold and protect our Folk. Each must begin with an oath – “We must secure the existence of our people and a future for white children”. And further stated, what we must fight for is to safeguard the existence and reproduction of our race and our people, the sustenance of our children and the purity of our blood, the freedom and independence of the nation, so that our people may mature for the fulfillment of the mission allotted it by the Creator of the universe. Every thought and every idea, every doctrine and all knowledge, must serve this purpose. And everything must be examined from this point of view and used or rejected according to its utility, and

Whereas, we believe that many Aryan men and women have felt the ancient call to protect the folk from the destructive influences of the enemy. Over the years many good people from our Folk have fought the fight as they saw proper. Many banners have flown over our Folk during these trying times. As this new century dawns we have seen little true progress against the enemy. However, the ancient call still reverberates within the soul of Aryan man to protect the Folk and crush the enemy.

Whereas, we believe that as Aryans we have a blood bond that transcends the minor differences that separate us. Our blood unity is at the core of what we fight for each day. The blood unity is expressed in our love of Family and Folk. This same blood unity will be the last hope of our Folk because the hour is truly late for our people and culture. Any energy spent dividing the Folk and

thus weakening the common front to the enemy should be viewed as counter-productive to the oath that each Aryan must take.

Now therefore be it resolved, that we, as National Socialists agree that the common foe is not each other but those who have turned us on one another. We acknowledge that while we are indeed separate and independent political entities with sometimes differing philosophies, we agree that strife among us serves only those who would see our Race, Culture and Way of Life ended. With this in mind and in the spirit of a new Cotswold Agreement, we resolve to adopt principals of high standards, firmly renounce all aspects of criminal activity and domestic terrorist actions, and to end all negative public discord among fellow National Socialists that would only serve our foes. We will refrain from intrigue in the internal affairs of each other's internal affairs, nor assist our foes in attacking fellow National Socialist Parties, and to always advance a positive message that demonstrates the true character of National Socialism that the world held in high esteem from the 1920's through the 1940's as demonstrated by its policy success in Germany.

Be it resolved and evermore understood, that we, the undersigned, will endeavor to foster a political climate that ushers in a new dawn of American National Socialism. We, as a united front of National Socialists, will maintain the highest standards and iron discipline within our ranks. We will ensure that our public leadership is worthy of the role of carrying the torch of National Socialism. We will communicate and coordinate on issues and strategies to further our Folk and National Socialism to the betterment of our Folk. We will not spill ink or blood against each other and further the goal of our enemy. We will ensure we will maintain the high standards of true National Socialism as passed to us from the martyrs of our sacred movement. We will supply the true National Socialist Worldview, a holistic, multi-faceted worldview, to our Folk as the last chance for the survival and advancement of our Aryan Folk. We, by agreeing with and signing this document, acknowledge that we struggle for our Folk, not for personal glory or ambition, but for the noble cause of National Socialism. Nothing can tarnish this noble endeavor and nothing will tarnish it! We stand in united agreement to the above stated resolutions and understandings and sign in sacred trust.
