

THE TRUE AMERICAN NATIONAL SOCIALIST

***What is the first commandment of every American
National Socialist?***

**Love America more than anything and your fellow Aryan American
more than yourself**

What does it mean to be an American National Socialist?

**To be an American National Socialist means nothing but Struggle,
Faith, Work, and Sacrifice**

***What do we American National Socialists want for
ourselves?***

Nothing!....

***What ties American National Socialists together in our
struggle for America's renewal and preservation of our
people's culture, freedom, and history, within and without
our borders?***

**The awareness of belonging to a community of fate, a community
imbued with a spirit of radical patriotic innovation, a community
whose members shall be companions, one to the other, in good times
and in bad.**

***What is the American National Socialist password to
freedom, victory, and success?***

God helps those who help themselves!...
